

Hans-Peter Marshall

Associate Professor and Director,
Cryosphere Geophysics And Remote Sensing (CryoGARS) group (208) 426-1416 (office)
Department of Geosciences and CGISS, Boise State University (303) 859-3106 (cell)
Environmental Research Building (ERB) 1104 (lab), 3155 (office) hpmarshall@boisestate.edu
1910 University Drive www.boisestate.edu/earth-cryogars/
Boise, ID 83725

Education

- 2005 Ph.D, Civil Engineering (Geotechnical), GPA: 3.9/4.0
Institute of Arctic and Alpine Research, University of Colorado at Boulder, Thesis: *Snowpack spatial variability: towards understanding its effect on remote sensing measurements and snow slope stability*
- 1999 B.S., Physics with honors, Geophysics Minor (1st in UW history), GPA: 3.6/4.0
University of Washington, Thesis: *Wet snow densification*

Selected Professional Experience

- 08/2013-present Associate Professor, Department of Geosciences and Director, Cryosphere Geophysics And Remote Sensing (CryoGARS), Boise State University
- 08/2008-07/2013 Assistant Professor, Professor, Department of Geosciences and Center for Geophysical Investigation of the Shallow Subsurface (CGISS), Boise State University
- 04/2006-08/2008 Research Associate, Inst. of Arctic and Alpine Research (INSTAAR)
University of Colorado at Boulder

Selected Honors and Awards

- 2020 Project Scientist, NASA SnowEx 2020 Mission
- 2017 NASA Robert H. Goddard Team Award for SnowEx Year 1
- 2012 Timeless Award, University of Washington, 1 of 150 College of Arts and Sciences alumni awarded from UW history on 150th yr anniv. (1861-2011), 1 of 3 from Physics Department
- 2010-13 New Investigator Program Award, NASA, 1st in Idaho history
- 2010 Young Scientist Award, Cryosphere Section, American Geophysical Union
