

H.P. Marshall, Boise State University
Current / Pending
February 12, 2023

NSF Major Research Instrumentation (MRI)
Long-range Airborne Snow and Sea Ice Observing System (LASSIOS)
Total: \$161,883 to BSU
Labor: CoPI Marshall (1 month), Research Tech (3 months), Student Funding (0)
9/15/2018-8/31/2023

NASA Instrument Incubator Program (IIP)
CMOS Ku-band Radar for Snow
Total: \$1,123,384 to BSU
Labor: PI Marshall (1 month), Research Tech (11 months), Student Funding (0)
2/1/2020-1/26/2024

USFS Rocky Mountain Research Station
Snow Temperature Modeling
Total: \$40,000
Labor: PI Marshall (0), Student Funding (14 months)
10/1/2021-9/30/2024

NASA FINESST
Deep and Shallow Learning in Deep and Shallow Snow: SnowNet
Total: \$133,864
Labor: PI Marshall (0), Student Funding (6 months remaining)
9/1/2018-8/31/2023

NSF Arctic Observing Network (AON)
NSFGEO-NERC: Collaborative Research: The Integrated Characterization of Energy, Clouds, Atmospheric state, and Precipitation at Summit (ICECAPS): Melt along Lagrangian Transects
Total: \$204,068 to BSU
Labor: CoPI Marshall (0.5 months), Research Tech (6 months), Student Funding (0)
1/1/2022-11/30/2024

NASA Terrestrial Hydrology Program (THP)
Evaluation of L-band InSAR using L-band GPR
Total: \$60,813
Labor: CoPI Marshall (0.5 months), Student Funding (0)
1/1/2022-12/31/2024

NASA Instrument Incubator Program (IIP)
Snow Water equivalent Wide swath SAR and InSAR (SNOWWI)
Total: \$354,698
Labor: CoPI Marshall (1 month), Student Funding (24 months)

NASA Terrestrial Hydrology Program (THP)

SnowEx 2022-23 Leadership Support

Total: \$137,968

Labor: PI Marshall (1 month), Student Funding (0)

NASA EPSCoR

*CryoIdaho: Building Idaho's Cryosphere Research Community through
Analysis of Terrain Effects on Snow and Ice Meltwater Fluxes*

Total: \$750,000

Labor: CoPI Marshall (0.25 months), Student Funding (0)

NASA JPL

Support of SoOp Grand Mesa Field Campaigns

Total: \$60,366

Labor: PI Marshall (0.5 months), Student Funding (0)
